PROFILE

A motivated engineering student exploring Cyber Security and System-Level Programming. Possessing practical knowledge in Vulnerability Assessment and Penetration Testing (VAPT), Malware Analysis, Cloud Security, and Mobile Application Penetration Testing. Currently exploring **Spring Boot** and its libraries for building scalable **microservices** and backend applications. Strong in **Data Structures, Algorithms, and Logic Building** with a focus on problem-solving.

EDUCATION

Parul University <i>Bachelor of Technology (B.Tech) in Computer Science and Engineering — CGPA: 7.66/10</i>	Vadodara, Gujarat <i>August 2023 – July 2027</i>
Kendriya Vidyalaya VFJ Shift-I <i>Senior Secondary Education (CBSE), Science Stream — Percentage: 68.8</i>	Jabalpur, MP <i>April 2022 – March 2023</i>
Kendriya Vidyalaya VFJ Shift-II <i>Secondary Education (CBSE), — Percentage: 86.0</i>	Jabalpur, MP <i>April 2020 – March 2021</i>

PROJECTS

Post-Quantum Cryptography Simulator Tools Used: Kali Linux and Python - Developed a simulator for Post-Quantum Cryptography algorithms such as CRYSTALS-Kyber and CRYSTALS-Dilithium with key generation, encryption/decryption, and digital signature workflows. - Implemented comparative analysis features for classical and post-quantum algorithms based on key size, security level, computation speed, and memory usage. - Designed interactive visualizations to help students and researchers understand quantum-resistant cryptographic mechanisms and algorithm workflows.	[Github]
CPU Scheduler Visualizer Tools Used: HTML, CSS, JavaScript for interactive visualization and Java Spring Boot for backend logic. - Developed a simulator for SJF, FCFS, Round Robin, and Priority Scheduling with process input and Gantt chart generation. - Helps students and educators understand CPU scheduling behavior and analyze system performance visually.	[Github]

SKILLS

- Programming Languages:** Java, C/C++, Python
- Web Development:** HTML, CSS, JavaScript
- Databases:** MySQL
- CS Fundamentals:** Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks

ACHIEVEMENTS AND CERTIFICATIONS

- LeetCode** [Profile]: Solved **50+ DSA problems**
- GeeksforGeeks** [Profile]: Solved **150+ Problems**
- Quick Heal Certified Cyber Security Analyst**
- Quick Heal Certified Malware Analyst and Reverse Engineer**
- Quick Heal Certified Vulnerability Assessment and Penetration Testing Analyst**
